Greatest Improvement of the Age.

The Good Samaritan!

VENTILATED OVEN,

COOKING STOVE!

We are sole AGENTS for BANGOR and vicinity for the celebrated Cooking Stove,

GOOD SAMARITAN.

THIS STOVE was patented by Messrs Rathbone & Co., of Albany, July 19, 1859, and although but little more than a year has expired since it was first operated, its many wonderful feats in cooking have already placed it far in advance of any other Stove which has as yet been offered to a discriminating public. We claim for the Good Samaritan that its economy of fuel, its simplicity of arrangement and real practical utility of the conveniences which surround it, have placed it far in advance of any stove yet offered to the world. We will name a few of the advantages which it possesses over any other stove, as well as some of the conveniences which attend it.

1. It has greater weight of castings, the bare stove weighing from 400 to 450 pounds.
2. Greater capacity for baking. It has a very large Oven, and also conveniences for baking on the top of the stove. It has also a large front roaster for baking bread, pies, &c. or roasting meat, and this without danger of contaminating with the same taste, the finest delicacies being baked in the oven of the stove, an advantage which no other stove using the roaster possesses.
3. Its perfect control of heat. The Good Samaritan has a treble draught arrangement, which enables the operator to use as little or great a fire as he chooses. The advantage which this arrangement gives over any other economist of fuel is, that while a fire may be started in the cold stove in from one-third to one-half less time, the operator can, after his fire is once started, lessen the draught as much as he pleases, even to closing it entirely—thus giving him perfect control of the heat.
4. It has a soap stone fire back, which will never burn out, and consequently will not need replacing. Soap-stone is used very extensively as a lining to coal stoves, as it is well established that nothing else will stand the effect of intense heat for so great a length of time.
5. Its accommodations for broiling are perfect and unequalled. It has a splendid arrangement for broiling on the hearth, giving a perfect draught, through, under and around the gridiron into the flues of the stove, keeping the coals alive and carrying off all smoke and gases arising from the food.—It will also broil very nicely upon the top without the smoke entering the room. This is accomplished by closing the draught, and can only be effected by a perfectly air-tight stove.
6. Its arrangement for the ventilation of the oven cannot be excelled. It is effected by holes in the front door of the stove, through which the fresh air passes, striking against the front plate of the fire chamber, (thus becoming heated before entering the oven,) then through the ventilating damper into the oven of the stove, where it forces all gases arising from the food, which will naturally rise to the top over the front oven plate behind the fire-back into the fire-chamber, where they are consumed, (thus adding fuel for combustion,) and also to the perfect draught of the stove.
7. The Good Samaritan has, in a single year, proved itself to be the most economical, as well as the most efficient stove in the world. The great advantage it possesses of being able to do a greater variety of cooking at once with greater rapidity of operation, is not to be lightly passed over. None who have ever examined it closely can doubt for an instant, but that, with ordinary usage, it must last from 15 to 25 years. They can base this belief on its great weight, and the small quantity of fuel necessary to operate it—for the less fuel consumed the longer a stove will wear.
8. That it possesses all the attributes and qualities of a first class stove in the height of perfection, is no longer an experiment, but an established fact. That it has no equal, we are fully prepared to demonstrate to all impartial persons, and solicit all, whether wishing to purchase or not, to call and see the stove and be convinced of the truth of these statements.

We desire every house-keeper in Penobscot County to call, and we think they will be fully repaid by examining the merits of this wonder of the age.

Description pamphlets, and all information will be cheerfully furnished by us, at our store,

THE ONLY PREPARATION

THAT HAS

Stood the Test of Years,

And grows more and more popular every day!

AND testimonials new, and almost without number, might be given from ladies and gentlemen, in all grades of society, whose united testimony none could resist, that Prof. Wood's Hair Restorative will restore the bald and gray, and preserve the hair of the youth to old age, in all its youthful beauty.

BATTLE CREEK, Mich., Dec 21, 1858.

Prof. Wood—Thee wilt please accept a line to inform thee that the hair on my head all fell off over twenty years ago, caused by a complicated chronic disease, attended with an eruption on the head. A continual course of suffering through life having reduced me to a state of dependence, I have not been able to obtain stuff for caps, neither have I been able to do them up, in consequence of which my head has suffered extremely from cold. This induced me to pay Briggs & Hodges almost the last cent I had on earth for a two dollar bottle of thy Hair Restorative, about the first of August last. I have faithfully followed the directions, and the bald spot is now covered with hair thick and black, though short. It is also coming in all over my head. Feeling confident that another large bottle would restore it entirely and permanently, I feel anxious to persevere in its use, and being destitute of means to purchase any more, I would ask thee if thee wouldst not be willing to send me an order on thine agents for a bottle, and receive to thyself the scripture declaration—"the reward is to those that are kind to the widow and the fatherless."

Thy friend, SUSANNAH KIRBY.

LIGONIER, Noble Co., Indiana, Feb. 5, 1859.

Prof. O. J. Wood—Dear Sir: In the latter part of the year 1852, while attending the State and National Law School of the State of New York, my hair from a cause unknown to me, commenced falling off very rapidly, so that in the short space of 6 months the whole upper part of my scalp was almost entirely bereft of its covering, and much of the remaining portion upon the side and back part of my head shortly after became gray, so that you will not be surprised when I tell you that upon my return to the State of Indiana my more casual acquaintances were not so much at a loss to discover the cause of the change in my appearance, as my more intimate acquaintances were to recognize me at all.

I at once made application to the most skillful physicians in the country, but, receiving no assurance from them that my hair could again be restored, I was forced to become reconciled to my fate, until, fortunately, in the latter part of the year 1857, your Restorative was recommended to me by a druggist, as being the most reliable Hair Restorative in use. I tried one bottle, and found to my great satisfaction that it was producing the desired effect. Since that time I have used seven dollars' worth of your Restorative, and as a result have a rich coat of very soft black hair, which no money can buy.

As a mark of my gratitude for your labor and skill in the production of so wonderful an article, I have recommended its use to many of my friends and acquaintances, who, I am happy to inform you, are using it with like effect.

Very respectfully yours, A. M. LATTA, Attorney and Counsellor at Law.

The Restorative is put up in bottles of three sizes, viz. large, medium, and small. The small holds 1/2 a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent more in proportion, and retails for three dollars per bottle.

...BLOOD FOOD...

AN equal and normal circulation of the blood is health. An abnormal, that is to say, an excessive or deficient circulation or stagnation of the blood, is disease. To illustrate—torpidity of the Liver is caused by stagnation of the blood in that organ, diseases of the Kidneys, inflammation of the Lungs, Diseases of the heart, &c., by the same cause, viz: Improper Circulation; and from the same cause spring all minor forms of disease. To discover a certain cure, then, for these diseases, the first great enquiry necessarily is, What causes the blood to circulate?

For centuries it has been a matter of much study among scientific and medical men; and while many experiments have been made and much labor expended upon the enquiry, it has been left to this century among its other wonderful increase in knowledge, to make this grand discovery, also.

Acknowledging that life is the gift of the Creator, and that "in Him we live and move and have our being," we still venture the remark that as the planets move in their spheres and all vegetable life is governed by certain absolute laws so animal life is traceable to a fixed cause, which remove or destroy, and death, the certain effect, follows.

Analysis of the red corpuscles of the blood show them to be compounds of iron, sulphur and phosphorus.

The air we breathe, we know to contain a very large proportion of oxygen.

Oxygen brought in contact with a metal evolves or emits electricity.

Electricity brought in contact with a muscular fiber, causes it to contract.

These facts being indisputable, we have now the solution as to the motor or motive power of the heart. The oxygen in the air we breathe coming in contact with the iron corpuscles of the blood emits electricity, which coming in contact with the heart causes it to contract, and hence the power which expels the blood and sends it tingling through the remotest arteries. What then are the causes of Consumption, Dropsy, Palsy, Paralysis, St Vitus' Dance, Dyspepsia, Epilepsy, Fever and Ague, &c., a deficiency of the red corpuscles containing the iron, sulphur and phosphorus, which causes a deficiency of electricity, and consequently an abnormal circulation. The blood becomes watery, colds and bronchial complaints and prostration ensue—the sufferer becomes nervous, and subject to rheumatic pains and neuralgia—complaints of the liver and kidneys set in, in short, almost every type of disease but virulent fevers may be traced to this deficiency in the blood, of the corpuscles or red globules.

Old age causes a deficiency of corpuscles, and while we do not pretend to say that we have discovered the "elixir vitae," we do say that life can be materially prolonged by the use of the

"Blood Food,"

which restores the red globules, and thus the normal circulation. Consumptives! Friends of consumptives! Sufferers from any organic disease!! Unfortunates, who have, by excess of the body or mind reduced the standard of the blood and diminished the red globules: Ladies suffering any of the distresses known as female complaints, be persuaded the "Blood Food" can cure you. It has cured thousands of desperate cases where all hope has been given up. Do not reject it, do not throw away your only hope. The "Blood Food" is an unfailing remedy; give it a trial.

An elaborate treatise, carrying out and fully proving the theory advanced here to be correct, will be mailed to any interested party, on the receipt of two 3 cent stamps. Blood Food is sold by all druggists, or where it cannot be had I will send 6 bottles, free of expense, for $4. Price, single bottle, $1. It is put up in 2 oz. vials, in yellow wrappers—the old kind, in small bottles, in red wrappers having been done away with—and bears the fac-simile signature of Church & Dupont upon the face of the wrapper. Beware of counterfeits and imitations.

YOU CAN'T FIND

An Article that Suits as Well as HEIMSTREET'S INIMITABLE

HAIR RESTORATIVE.

Apothecaries and consumers all testify that It is the Only Reliable Article FOR THE BALD AND GRAY.

Read the testimony from Kentucky.

PADUCAH, KY., July 27, 1860.

MR. W. A. BELL.

Dear Sir:—I have used HEIMSTREET'S INIMITABLE HAIR RESTORATIVE and am satisfied, from an experience in all other preparations for the like purpose, that *it is the only article ever before the public worth purchasing.*

Yours truly, JOHN G. DALY.

PADUCAH, KY., July 27, 1860.

MESSRS. W. E. HAGAN & Co., Troy, N. Y.

Gents:—Above please find statement of Mr John G Daly, a merchant of our city, in regard to HEIMSTREET'S INIMITABLE HAIR RESTORATIVE. This testimony is given after having used most of the preparations now before the public *claiming* to be Hair Restorative, and *must be considered conclusive* as to the merits of the *Inimitable*. Am out of the large size. Forward by Railroad double the quantity we had before.

Very truly yours. W. A. BELL.

IT WILL RESTORE THE NATURAL COLOR OF THE HAIR,

where age or sickness has turned it gray, and it will render it soft and glossy.

"ANYBODY"

who may try it, will find that it does not color the skin, but by stimulating the natural secretion at the roots, gives new life and strength to the Hair, and thus restores its color and freshness. It can be used as freely as water upon the scalp, and with as much safety—is composed of oil and stimulating spirits, and as an article for the toilet, has no equal.

Read this Letter.

ST LOUIS, Mo., June 1st, 1859.

MESSRS. W E HAGAN & Co.,

I hereby certify that my Hair, having become *gray* and my head partially *bald*, I bought from Henry Reynolds, Druggist, one four oz bottle of HEIMSTREET'S INIMITABLE HAIR RESTORATIVE. By its use my Hair was restored to its original color and thickness; it removed all dandruff, arrested its falling and gave it a rich, glossy appearance. Its effects were entirely different from any Hair Preparation I ever used before. I know of several ladies and gentlemen, my intimate friends, who all speak of the "Inimitable" as being the best and cheapest Hair Preparation in our market. I can fully recommend it, and will refer any one to Henry Reynolds, Druggist, for the truth of my statements.

WILLIAM BOSBYSHALL.

Read one of the many letters received by the Proprietors.

ST. LOUIS, Mo., Aug. 2, 1860.

MESSRS W. E. HAGAN & Co., Troy, N. Y.—Gents:

The happy results attending the use of *Heimstreet's* INIMITABLE (in every sense of the word,) *Hair Restorative*, seems to demand that I should give my testimony that other ladies might profit by it. I have never used a hair preparation that I liked so well. It has *completely restored* every hair that was gray to the color it was in girlhood, and has brought it out thick and healthy. I was induced to use the article by Mr. Reynolds, your Agent here. If this letter will be of service, you may publish it.

Very respectfully yours,

The Portland Kerosene Oil Co.

GIVE NOTICE that they are manufacturers of "Kerosene Oil," and Proprietors of the Trade Mark of that name; and whereas it has come to their knowledge that other persons, either fraudulently or through ignorance, are selling in the market, under that name, "common Coal Oils," of dark color, offensive smell, and poor quality, for burning and lubricating, and Kerosene oils adulterated with Camphene, Burning Fluid, Coal Tar, and Rosin Naptha, and other deleterious substances, to the damage of both ourselves and the consumers. The present is to caution our consumers, and consumers generally, against said imposition; and we would request that when doubt exists in regard to having obtained the Pure Kerosene Oil, that samples be submitted to us for examination, and proof furnished that the proper legal measures may be taken to protect us in our just rights.

The Pure Portland Kerosene Oil can be obtained, in any quantity, of

Dime Life of Gen. Scott, At A. BARTLETT'S

Treasurer's Sale.

STATE OF MAINE.

TREASURY OFFICE, *Augusta*, August 12th, 1861.

PURSUANT to Chap. 6, Sect. 31, of the Revised Statutes, I will, at the State Treasury Office in Augusta, on the 11th day of September next, at 11 o'clock in the forenoon, sell and convey by deed to the highest bidder, all the interest of the State in the tracts of land hereinafter described, lying in unincorporated townships—the said tracts having been forfeited to the State for State taxes and county taxes, certified to the Treasurer of State.

The sale and conveyance of each tract will be made subject to a right in the owner or part owner whose rights have been forfeited, to redeem the same at any time within one year after the sale, by paying or tendering to the purchaser his proportion of what the purchaser paid therefor at the sale, with interest at the rate of twenty per cent per annum from the time of sale, and one dollar for release, or such owner may redeem his interest by paying as aforesaid to the Treasurer of State, as provided in Chapter 6, Sect. 36 of the Revised Statutes.

No tract, however, will be sold at a price less than the full amount due thereon for such unpaid State and county taxes, interest and cost, as described in the following schedule:

Dental Card.

Dr. J. K. Lincoln, (Late of Augusta.)

DESIRING to avail himself of the course of Instruction at the Theological Seminary in this city, and being under the necessity of devoting a part of his time to the practice of his profession, has taken the office lately occupied by Dr. J. W. Freese,

No. 3 Union Block, Main Street, over Alden's Drug Store,

Where he will be happy to wait upon those desiring his professional services. Dr. Lincoln has engaged as an assistant,

Mr N. S. JENKINS, OF THIS CITY.

Ether or Chloroform administered to proper subjects, when desired. All operations performed in the most skillful and permanent manner. Perfect satisfaction given, or no charge. Office hours from 8 o'clock A. M. to 6 o'clock P. M.

TESTIMONIALS.

DR. J. K. LINCOLN.—Though we have not the pleasure of a personal acquaintance with the gentleman, yet we have reason to believe that he is a most skillful practitioner of the dental art. At least, he has made one old face in our house look young again, and has fitted, by art, a pair of jaws to masticate the food again which dame nature tho't to deprive of this privilege a little too soon. We think the work and composition of the two full sets of teeth he has inserted cannot be excelled anywhere. We regard his presence in our city as an acquisition—not only as an accomplished dentist, but as a gentleman of good public talents and of an excellent private character.

REV. W. A. DREW, in the *Rural Intelligencer.*

Dear Sir:—While Dr. Lincoln resided here I had frequent occasion, for myself and family, for his professional services. He gave entire satisfaction. I can cheerfully recommend him to those needing his aid. Very truly yours,

Augusta, Oct. 6, 1860. LOT M. MORRILL.

Dr. J. K. Lincoln, who has recently removed to Bangor, resided in this city for several years and I take pleasure in bearing testimony to his high reputation as a skillful and successful dentist.

Correspondence of the Whig & Courier

CALAIS, Sept 2.

It is a lonesome, dreary ride, over the "Air Line Road," to this place, nearly all the way a wilderness, and all the way to Beddington hills, some of them so steep, to adopt the language of a *settler* of whom we enquired, "that they hang over a little." We left Bangor early Friday morning, and I saw nothing worthy of note, not even " game" or passers-by, nor even the famous wolves that figured so extensively a few years ago in the brain of an excited driver, and afterwards in the equally fertile imagination of Harper s Weekly The last fifteen miles, Friday night, was accomplished in the dark, through the woods, without passing a house, and it was with fear and trembling that we knocked at Eben Bacon s door, and proffered the request for a night s lodging and a place for our weary nag A hearty welcome greeted us, and in a marvellous short time one of us was dreaming of a dozen hungry printers at his coat tail, for their week's pay and the other of telegraph lines and telegraph wires and snoring furiously

As we approached Calais on the following day, evidences of civilization again greeted our eyes Baring is a pretty little village about five miles from Calais, and is the only place of any consequence on the whole route

We found Calais a smart enterprising, energetic thriving place, much exceeding our expectations Lumber is the great staple here, and lumbering and business connected with it, occupies the entire attention of the people Milltown Calais is a part of Calais, and is also a thriving place St Stephens on the New Brunswick side is connected with Calais by several bridges and between the people of the two places there is the best of friendly feeling There is none of the jealousy so liable to exist in places only divided by a river particularly when they are under different governments. Milltown St Stephens to St Stephens proper, what Milltown Calais is to Calais—one in business yet different villages—and in fact the four villages are but one

Saturday afternoon we made an excursion to Princeton over the Calais and Baring and the Lewy s Island railroad The Calais and Baring road is under the efficient management of W W Sawyer formerly a Kennebecker, but now a regular down easter and withal a perfect gentleman He is equally at home in the machine shop and on the road and can manufacture every thing from a telescope to a wooden nutmeg although at present he leaves the latter entirely to the citizens of Connecticut but of the former he has manufactured a very beautiful one for his own use and the use of his friends About a fortnight ago the bridge across the river at Sprague s Falls, on the Lewy s Island road was burned and an engine tender and several freight cars went over into the bed of the stream—leaving no machinery or the upper end with which to run the road A week ago the Directors authorized Sawyer to rebuild the bridge and in one week a temporary bridge three hundred feet long was erected and the cars passed over Both roads are now run by the Calais and Baring road, which is as it should be as the roads can be run as easily as one and at a great deal less expense than under two managements

Both roads are twenty two miles long and we give the places passed through and distances as taken from the conductor s check—From Calais to Milltown 2 miles to Baring 5 to Sprague Falls 10 to Baileyville, 18 to Princeton ...

The amount of lumber brought over the road is enormous some days amounting to half a million feet, carried by fourteen or fifteen trains

Princeton, the terminus of the road is on Lewy s Lake the terminus of a long chain of lakes one branch of the head waters of the St. Croix River The se lakes and the streams which run into them furnish an enormous quantity of lumber which is run down the streams, towed across the lakes by the steamer Capt Lewy and run down the St Croix to Calais the great headquarters for lumber for all the region around All the supplies for this vast lumbering region, go over the railroad and are transported to the nearest point to the camps by this steamer, and the amount of business done in his way is very large and all this serves to fill the coffers of the Calais people.

There are many other things worthy of notice in and around Calais, but aware of the scarcity of room in a daily paper we will not enlarge

The importance of establishing a line of travel to the west by the way of the C & B and L I R R and the chain of lakes mentioned above, is not generally appreciated Nature has almost laid out a line and a little enterprise will complete an admirable summer route As we stated the railroad is completed to Princeton, from which place a steamer can run through Lewy s Lake, Long Lake and Big Lake Here there is a carrying place of three miles, over which is a fine carriage road We then reach Grand Lake from which is a continuation of the chain of lakes navigable by steamboat to within a few miles of Springfield Here is another short stage route to Lincoln, where we can connect with the Penobscot River steamers, until the road is completed to Lincoln, which Bangor energy and enterprise would have completed by 1862 had it not been for our disastrous war—We believe the whole distance by stage is only seventeen miles so that by placing a little steamer on Grand Lake a summer route to the west can be secured with only seventeen miles of staging We have no doubt this will be established as soon as we join them by rail at Lincoln which we trust and believe will be shortly accomplished L

MAKE PEACE WITH KING DAVIS, and permit him to abolish FREE SUFFRAGE, THE FREEDOM OF SPEECH, the FREEDOM OF THE PRESS, for he knows these inestimable constitutional blessings are more bitter enemies than all the Federal armies.

It has never been positively known how much Arnold received for his treason. Nor will it, probably, ever be known how much the rebel Government pays its "Peace" emissaries at the North But it is known that Arnold was always despised by those whom he served. So will these "Peace" traitors be despised by the rebels. They will kick them when they get through using them.

THE DIRECT TAX as it now stands, bears lightly upon that largest class of our population, the moderate farmers, and Congress evinced a proper discretion in that particular A man who has a farm worth $1000, under this act, will pay a tax of about one dollar, and no patriotic man will pay that small pittance grudgingly, who has the slightest appreciation of the value of this government, or of the startling fact that if the Union fails, his thousand dollar farm could not be sold for $250, if, indeed, a purchaser could be found at any price'

Let the Union be destroyed and every man's property is sacrificed, while on the other hand if it be restored and maintained, the ordeal through which it will have passed, will make it stronger and brighter than ever Hence every man s interest admonishes him to do all in his power to preserve the Union, and to frown upon Disunion, whoever may be bold enough to breathe it.

How Treason is Treated in Connecticut.

The boldness of the secession sympathizers in Connecticut, and the state of feeling their treasonable demonstrations has created among the people, have induced Governor Buckingham to issue a proclamation against "the utterance of seditious language, the peril in which the liberties of the people is placed by "a traitorous press, which excuses or justifies the rebellion by secret organizations which propose to resist the execution of the laws of this State by force by the public exhibition of 'peace flags' falsely so called, and by an effort to redress grievances regardless of the forms and officers of the law His Excellency says that the existence of the government, the future prosperity of the nation, and the hopes of universal freedom demand that these outrages should be repressed, and the proclamation goes on to say

"The Constitution guaranties liberty of speech and of the press but holds the person and the press responsible for the evils which result from his liberty It guaranties the protection of property but it regards no property as sacred which is used to subvert governmental authority It guaranties the person from unreasonable ... ire but it protects no individual from arrest and punishment who gives aid and comfort to the enemies of our country It provides by law for the punishment of offenses but allows no grievances to be redressed by violence.

I therefore call upon the citizens of this State to support and uphold the authority and dignity of the Government and to abstain from every act which can tend to encourage and strengthen this conspiracy and I call upon the officers of the law to be active diligent and fearless in arresting and in instituting legal proceedings for the punishment of those who disturb the public peace of those who are guilty of sedition and treason, and of those who are embracing ... ... to obstruct the execution of the laws, so that peace may again be restored to our distracted country, and the liberties of the people be preserved "

ARRIVAL OF THE MINNESOTA AT NEW YORK—*The Hatteras Prisoners* The steam frigate Minnesota, which left Hampton Roads on the ... ult arrived off New York on Monday morning, 2d inst, at half past 7 o clock, bearing the broad pennant of Commodore Silas Stringham, commander of the Northern blockading squadron, and commander in chief of the naval division in the late engagement at Hatteras Inlet and the capture of Forts Clark and Hatteras The Minnesota brought 671 prisoners of war

During the passage—the report in the World of the 3d instant says—great care had to be exercised on the part of the officers and crew of the frigate The small guns used in the ships and cutters were brought aft, so as to be turned upon the prisoners should they rise the arm chests placed in a handy place, and the entire crew armed with cutlasses and pistols. The watches were doubled and every precaution taken to prevent the prisoners from regaining their liberty and possessing themselves of a valuable and formidable war vessel The prisoners were not handcuffed, but were allowed the liberty of the ship

A more motley set never grouped together than these confederate prisoners Most of them were dressed in gray clothes well worn, and in groups were gathered portions of companies, this was readily distinguished by the gaudy colored trimmings of their coats Hats and caps of all colors shapes and styles were worn while in a majority of cases the old adage of "a man who has not got shoes can go barefoot," was exemplified in pedal coverings of the braves

Passing forward one could not fail to be struck with the dilapidated appearance of the prisoners They were comprised of persons of all ages, from mere boys to old and gray headed men All ranks in society are represented from the tar biler to the merchant, yet all wore a half barberous look probably owing to the fact that neither razor or shears had been known in their camp since they had been established and as for other toilet appliances, it seemed as if many of them had never seen a comb, much less used one

It is said that the rebels knew nothing of the intended attack until it was too late to beat a retreat

WORTHY OF IMITATION The Emperor Napoleon having determined to capture Sebastopol, sent thither, within two years, 309,268 French soldiers with 41 974 horses, 1676 guns of all calibres, 8 800 000 pounds of powder, 14,000 tons of engineer material, 590,000 tons measurement of subsistence fuel and forage, with ample supplies of clothing &c If France could make these gigantic preparations for her quota of the besieging forces for the conquest of a fortress, what should our government do when the existence of the Union is at stake

☞ General McClellan was serenaded at Washington on Saturday night, and urged to make a speech in acknowledgment of the honor He replied "I have my duty to do, and cannot lose the time to acknowledge this compliment, if all the bands and all the people in Washington are in the street"

☞ The New Bedford Mercury says that on Thursday evening, at half past nine o clock, fire was discovered in the store of Obed Nye, at the Head of the River Some one passing saw through the grating sparks dropping into the cellar He raised an alarm, and the neighbors assembling, broke in the door, and extinguished the fire. A son of Mr Nye arriving at the store, immediately seized on a keg from under the counter, and carried it to place of safety The keg contained *powder*, and as the young man took it up, *the hoops dropped off*, having been burned through in the fire.

☞ The Machias papers report that a severe drouth prevails. The mills are all stopped. The fields and pastures are drying, so that the fall feed will be poor, unless we have rain soon.

A NEW GUN We have seen the drawings of a new gun, the invention of an American, which has been patented in England and its practicability tested, and which looks like a very formidable weapon It is simple and ingenious, and we see no mechanical objection to its practicability In construction this gun is a bundle of Minnie rifle barrels united into a cannon or battery, and so arranged that three men can easily charge and discharge with all the strength and accuracy of range of the best Minie rifle, thirty six, seventy-two, or one hundred and forty four barrels every six seconds. Fourteen hundred and forty balls may thus be discharged per minute, or eighty-six thousand four hundred per hour. One regiment of one thousand men, armed with three hundred guns, could charge and discharge over two million balls every five minutes.—*Boston Journal.*

FREEDOM OF THE PRESS. A writer in the New York Tribune thus forcibly illustrates the constitutional provision for liberty of speech and of the press

When you speak of a free press in these United States, you don't mean a free French press in the United States, or a free British press, but a free American press. And I suppose if a Frenchman should attempt in New York the publication of a paper devoted to the French Government, at a time when that Government was making war upon ours and besieging our National Capital, or if an Englishman should publish an English war journal, while the red coats were warring upon us by land and sea, his forcible suspension would cause no wailings about the "freedom of the press."

Conflicting Rumors Concerning Jeff Davis.

WASHINGTON, 4th.

The Executive Department has not received any confirmatory information of the reported death of Jeff Davis Intelligence in army circles renders such an event merely probable.

Com. Stringham has made an official report of the late victory, but it contains nothing additional He concludes by saying "I have a ught but praise to accord to the officers seamen and marines of the Navy, and to the officers, soldiers of the army who were present, for their gallantry, and cheerful devotion to duty and to the government which they cheerfully and heartily served"

SYRACUSE, 4th

After a recess the convention elected Herman J Redfield President, and a long list of Vice Presidents Two reports were made by the committee on contested seats, the majority reporting in favor of admitting the Tammany delegates from New York city, and the minority in favor of admitting both Mozarters and Tammanyites

Considerable debate ensued, after which the minority report was adopted, 100 to 98 The Tammanyites with lrew

After appointing the committee on resolutions, the convention adjourned till morning

It is thought more than probable that the Tammanyites will bolt, and unite with the Republicans on a Union ticket. The Ben Wood wing are highly jubilant.

HANNIBAL, Mo, 4th.

Corporal Dix and five men of the Iowa Regiment was surrounded while in farm house, by 26 secessionists who demanded surrender which was refused, when the rebels made an attack Our men maintained their position, driving the rebels from the ground with a loss of seven killed and five wounded Corporal Dix was killed—none of the others were hurt

WESLEYAN GROVE, Northport, Me, } September, 4th, 1861 }

Mr Editor

The annual "feast of tabernacles" of the Methodist societies in the valley of the Penobscot, commenced last Monday morning, under the most favorable auspices Never could there be a pleasanter trip down the river and bay Never did steam and tide take us to the ground in such fine season One of the officers of the meeting informs me that there are about 45 tents. We have plenty of familiar faces, a large attendance and most beautiful weather At this mornings prayer meeting at the stand, W H Jones reported himself from Baltimore—bound there again, and old Father Wentworth, in the 76th year of his age, thrillingly narrated some of his early sufferings and conflicts in the itinerancy

The best order prevails Rev E A Helmershausen, Presiding Elder of Bangor District, is one of the few men who *know how* to govern a camp meeting He *makes* us orderly by making us believe we are orderly It is no easy task to control 75 ministers (for they are unruly sometimes in spite of their goodness) and 3000 or 4000 people full of curiosity, and, if possible, fuller of motion

Rev B W Gorham of New York, assistant editor of the Guide to Holiness, and other distinguished guests are present

There is no visible banner to float over and distinguish the army of the Church militant, but the glorious Stars and Stripes float in the breeze over the encampment, and we find it a good flag to pray under

Secessionists catch "Jesse" here, I can assure you

In haste, yours truly,

KNOWLES

THE REBEL PRISONERS AT NEW YORK We take the following interesting particulars respecting the North Carolina soldiers taken to New York in the Minnesota, from the Commercial Advertiser

The prisoners on the passage hither were allowed full liberty of the ship, and were not placed in irons Of course, every precaution was taken to prevent a surprise, watches were doubled and armed, magazines carefully guarded, and the small arm chests and lockers in charge of special and trusty jack tars

The gun deck was occupied as the sleeping apartment of as many of the prisoners as could be accommodated, and the remainder were put on the spar deck with the boom cover, and thus protected from the falling dew The passage to this port being very favorable, the entire lot of prisoners are looking exceedingly well, considering their two days' fighting and their four days' imprisonment

A rougher looking class of men are seldom seen together. Most of them are dressed in gray clothes, and wear felt hats of all sizes and shapes, which are, to say the least, "shocking bad hats" Most of the prisoners were either barefooted or very near it The use of razors seems to be unknown to the great majority of them, and their unshorn hair adds much to the disagreeable appearance of the motley crowd — Most of them, however, are young, athletic men, and look as if they might endure hardships, but there is a peculiar expression about their countenance, which does not indicate courage Many of them claim that they were impressed into the Confederate service, and state that they are good Union men, but to save their lives they were obliged to take up arms for the Confederacy — This is an old story, and, with the officers of the ship, it is not credited in a majority of instances

Most of the common soldiers say that they are glad that they have been taken prisoners, and seem very anxious to know where they will be sent now they are here From them we learned that their officers have studiously endeavored to keep from them any Northern papers, but were willing to let them have and read any secession journals which contained the glowing accounts of *their* victories

The Capture of the Hatteras Forts.

Hatteras Inlet is about twelve miles south of Cape Hatteras, about one third of the distance between that Cape and Ocracoke Inlet, and is the principal entrance to Albemarle and Pamlico Sounds By its possession the insurgents are cut off, in a great degree, from all egress or ingress seaward through North Carolina and Virginia, and by way of the two broad, inland seas extending nearly from Cape Henry to Cape Lookout The navigation of these waters leaving open Newbern, Norfolk, and other ports, whereby their intercourse with the interior was uninterrupted, through the Albemarle and Dismal Swamp Canals and the various rivers which empty into the Sounds, has been of vast importance to the rebels, and they have used them with the greatest diligence, for months past, to send their own products to a profitable market, and to receive from various sources arms, provisions, and much else needful to a vigorous prosecution of the rebellion To cut off entirely that whole region of the South from all maritime intercourse it is only necessary to follow up this first blow, so well struck, by taking possession of the smaller inlets along the coast, and especially the larger and only very important one remaining, which commands the entrance to Beaufort. This, we trust, is to be the next work of this, or a similar expedition The stone laden vessels are doubtless to be sunk in the smaller inlets, or possibly at the mouths, or rivers, or canals farther in shore, while the forts erected at Hatteras Inlet by the insurgents will be held by Federal troops to command this principal entrance to the two Sounds. Having this entrance, the Navy Department only needs to keep a sufficient force of small vessels in these inland seas to control completely all the commerce of those waters, so important to those in arms against the Government, and profitable to the traitors who traffic in their country's distress

Should this or some other expedition proceed to Beaufort, though they may, and probably will, find a more difficult task and a less easy victory await them, their success will be all the more important as a completion of the work begun so well. To hold Beaufort is to hold the key of North Carolina, and may, even without another blow, by the help of the Union men of that State, reduce her insurrectionists to obedience. It will open a way to that region of North and South Carolina, Tennessee, and Alabama, where Union men are largely in the majority, and call the rebels to the defense of something more than Virginia and Maryland. The possession of the Railroad would enable the Federal forces to cut off Charleston, S. C., at Goldsboro' from its most direct communication with the North, and by pushing still further into the State all communication by rail between ...t city and the North would be interrupted The mere threat of the possibility of such an isolation of South Carolina by the possession of Beaufort would inevitably demoralise the insurgent army in Eastern Virginia. The reflection that such may be the consequences of the possession of Hatteras Inlet and the forts there must certainly be considered a very serious blow by the rebels themselves. But beside this possible danger, to hold possession of Albemarle Sound is to threaten Norfolk and Richmond in the rear, so that Mr Jeff Davis will be compelled to keep a lookout over his shoulder as well as that cheerful look ahead for the promised march through Northern cities

N Y Tribune

There is a good deal of dissatisfaction at the South with the depreciated paper money which the banks are sending out, and which they have been relieved from the necessity of redeeming, by the various Legislatures The Richmond Enquirer says that gold and silver are now selling in the Southern States at from ten to fifteen per cent. for current bank bills, and thinks it "intolerable that the banks should be exempt by law from the obligations to redeem their currency in specie, and at the same time sell the very gold and silver with which it ought to be redeemed for ten or fifteen per cent. in exchange for their own bills" It asks

"Are these institutions really the friends of Lincoln? Just so soon as it appears that the banks are to be allowed to prey upon the people at this time, when they are loyally and patriotically pouring into the public treasury every dollar they can spare, and bravely looking debt and taxation in the face, we shall find an abatement of zeal, and a discontent, perilous to our great cause. Whatever circulates our money now must circulate at par, and if the bills of suspended banks are really declining in value, and are, in fact, worth ten or fifteen per cent less than gold, it is time to crush them out If this evil should be allowed to proceed, we shall soon have universal bankruptcy Cast the money changers out of our holy temple Scourge them away from our patriotic altars"

A Charleston paper has the following communication on the same subject

Shin Plasters—Small Potatoes The Legislature legalized the suspension of specie payments by the banks, and a coin has since become so scarce and dear that the wants of the public called for and legalized the issue of small bills (bills of the denomination of five to fifty cents by the Bank of the State), which, as a *favor*, are doled out to the public, and printed on such miserable paper that many of them have already become worthless The writer sent a twenty cent bill, which was "tattered and torn," to the bank to day to be redeemed, and the answer was that they had no new bills In specie at such a premium that the banks cannot afford to pay twenty cents for shinplasters?

Charleston, Aug 21, 1861 A SUFFERER

☞ At the Session of the Penobscot Baptist Association, held at Corinth yesterday, Rev Dr Wilson, of the Special Committee on the National Crisis, reported the following resolves, which were unanimously adopted by the Association

Whereas, the free government of our country has been assailed by rebels in arms, and nothing is left but to meet force by force—

Resolved, That forgetting all party distinctions, as christian patriots, we will rally around our constitutionally chosen rulers, and aid them by our property, efforts and prayers, until this unnatural rebellion is crushed out, and peace is righteously restored to our land

Resolved, That those patriot young men, many of whom are members of our churches, who are now jeopardizing their lives in defence of our country, have our earnest approval and shall have our daily remembrance in our prayers

Resolved, That believing as we do, in the Providence of God over the world, and in the efficacy of prayer, we will not cease to pray for the overthrow of that "peculiar institution" which it is the direct object of their war to perpetuate and strengthen, and which has also led to the war by blunting the consciences of those who have so long held their fellow-men in bondage

Resolved, That we recommend to all our churches a conscientious and strict observance of the National Fast appointed on the last Thursday of the present month

The Tribune's special Washington correspondent says that prominent Kentuckians now in that city, owners of large numbers of slaves, are jubilant over Fremont's proclamation and its probable effects in Missouri and Kentucky, and express the hope that the same maxim will be adopted in the latter State if the necessity arises for it

☞ The English government is energetically pushing the cultivation of cotton in India, and endeavoring to secure the production of the best qualities The last steamer from Liverpool which arrived on Wednesday, brings intelligence that forty tons of cotton seed is now sent by every monthly steamer from Suez to India

CLOSING THE SOUTHERN INLETS We have already mentioned the fact that our active and efficient Secretary of the Navy had determined to close all the Southern inlets and smaller ports, by sinking old hulks across the channels This work has been commenced, and is rapidly progressing A single sloop sunk across the channel a short distance below St Mark's Florida, has effectually blockaded that port About twenty hulks have been purchased at Baltimore to sink at the entrances of the Carolina inlets, and range in price from $400 to $2,000 The total cost of this machinery for putting an end to smuggling and mercantile sympathy with rebels, was $21,000.—*Washington Republican*

A REBEL GENERAL KILLED Major Minturn of the New York 87th Regiment, while scouting on Sunday last, saw a General Officer, surrounded by a large staff, reconnoitering from Munson's Hill Driven by an unamiable firing of bullets from the road into a field of corn, Major Minturn retaliated by a rifle shot, aimed at the wearer of the cocked hat, who instantly fell out of his saddle. He was immediately picked up and carried into a school house. Fifteen minutes afterward some of the party struck the secession flag, as a token of grief. Major Minturn had killed their General.

OR PROTECTED

SOLUTION OF PROTOXIDE OF IRON COMBINED.

This well known Remedy has been used extensively and with great success for

DYSPEPSIA,

Or Impaired and Imperfect Digestion;

FOR THE CONSEQUENT

DETERIORATION OF THE BLOOD;

AND FOR THE FOLLOWING

FORMS OF DISEASE,

most of which originate in

DYSPEPSIA:

LIVER COMPLAINT, DROPSY, NEURALGIA and NERVOUS AFFECTIONS, LOSS OF APPETITE, HEADACHE, LANGUOR and DEPRESSION of SPIRITS, CARBUNCLES and BOILS PILES, SCURVY, AFFECTIONS OF THE SKIN, CONSUMPTIVE TENDENCIES, BRONCHITIS, DISEASES PECULIAR TO FEMALES, & ALL COMPLAINTS ACCOMPANIED BY GENERAL DEBILITY, AND REQUIRING

A TONIC AND ALTERATIVE MEDICINE.

Note.—The failure of IRON as a remedy for *Dyspepsia*, a bad state of the blood, and the numerous diseases caused thereby, has arisen from the want of such a preparation of Iron as shall enter the stomach in a PROTOXIDE state, and assimilate at once with the blood. This want the PERUVIAN SYRUP supplies, and it does so in the only form in which it is possible for Iron to enter the circulation. For this reason the PERUVIAN SYRUP often radically cures diseases in which other preparations of Iron and other medicines have been found to be of no avail.

Certificate of A. A. HAYES, M. D., of Boston.

It is well known that the medicinal effects of Protoxide of Iron are lost by even a very brief exposure to air, and that to maintain a solution of Protoxide of Iron, without further oxidation, has been deemed impossible.

In the PERUVIAN SYRUP this desirable point is attained by COMBINATION IN A WAY BEFORE UNKNOWN; and this solution may replace all the proto-carbonates, citrates and tartrates of the Materia Medica.
A. A. HAYES, Assayer to the State of Mass.
16 Boylston street, Boston.

Certificate of Jas. R. Chilton, M. D., of N. York.

It is well known that it has been found very difficult to preserve in a PALATABLE form for a desirable length of time, compounds of the Protoxide of Iron.—The "Peruvian Syrup," I am pleased to say, accomplishes this desired end.

ATWOOD'S Quinine Tonic BITTERS,

The Best Aromatic Tonic ever offered to the Public

Recommended by the Faculty

For its Superior Medicinal Qualities!

THIS elegant Compound which has secured the confidence and endorsement of most of the leading Physicians of New England is a palatable and efficient form of *Quinine* containing all the peculiar virtues of PERUVIAN BARK carefully combined with various *tonics* and *stomachics* and cannot fail to meet the wants of the debilitated.

It is a mild *tonic* to the stomach, increasing the appetite assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases and in fever and ague or kindred complaints its aid is invaluable.

For diarrhoea, dysentery and cholera morbus, the public may rest assured there is nor can be any better general remedy.

One of the very best physicians in Boston has said *"that it is the very best preparation of Bitters that has ever been offered to the public."*

Put up in half pint as well as quart bottles, in order that all may convince themselves of its superiority or merits.

For further particulars reference is made to the printed circular.

and all Diseases of the Throat and Lungs

READ THE FOLLOWING

From Hon Levi Underwood, Lieutenant Governor of Vermont

Messrs E B Magoon & Co—I have used your WEEKS' MAGIC COMPOUND for severe colds and sore throats, and it has proved an efficient remedy. It is a valuable accession to the list of remedies for colds, coughs, &c. I am, &c. yours,
LEVI UNDERWOOD
Burlington Oct. 8th, 1860

From Hon Joseph Poland, State Senator of Vt

I have used your WEEKS' MAGIC COMPOUND in my family and have never found any remedy so effectual in curing coughs and sore throat, and other diseases of the lungs. JOSEPH POLAND
Montpelier, Oct. 1, 1860

From Hon Timothy Redfield, late State Senator of Vt

By using your WEEKS' MAGIC COMPOUND a short time I was entirely cured of one of the severest and most obstinate colds upon my lungs that I ever experienced. I know of no remedy equal to it for coughs and lung complaints generally.
TIMOTHY P REDFIELD
Montpelier, Oct 13 1860

From Rev E B Smith D D Principal of New Hampton Institution

The MAGIC COMPOUND which you furnished me last spring when I was suffering most severely from the effects of a long continued cold upon my lungs, acted like a charm. The first night after taking it I coughed less and slept better than for weeks before and the use of it finally removed the difficulty entirely. I would use it again in preference to any medicine I have tried when similarly afflicted. Yours truly E. B SMITH
Fairfax, Vermont, April 24 1860

CROUP

A short time since my child was attacked most severely with the croup. We thought she would not live five minutes. A single dose of WEEKS' MAGIC COMPOUND relieved her at once, and she has had no attack of it since. I think no family should be without it. M P VARNEY

DR SWEET'S

Infallible Liniment!

—THE—

Great External Remedy

For Rheumatism, Gout, Neuralgia, Lumbago, Stiff Neck and Joints, Sprains, Bruises, Cuts and Wounds, Piles, Headache, and all Rheumatic and Nervous Disorders,

FOR all of which it is a speedy and certain remedy, and never fails. This Liniment is prepared from the recipe of Dr Stephen Sweet of Connecticut, the famous bone setter and has been used in his practice for more than twenty years with the most astonishing success.

AS AN ALLEVIATOR OF PAIN it is unrivalled by any preparation before the public of which the most skeptical may be convinced by a single trial.

This Liniment will cure rapidly and radically RHEUMATIC DISORDERS of every kind and in thousands of cases where it has been used, it has never been known to fail.

For NEURALGIA, it will afford immediate relief in every case however distressing.

It will relieve the worst cases of HEADACHE in three minutes and is warranted to do it.

TOOTHACHE also will it cure instantly.

FOR NERVOUS DEBILITY and GENERAL LASSITUDE arising from imprudence or excess this Liniment is a most happy and unfailing remedy. Acting directly upon the nervous tissues, it strengthens and revivifies the system and restores it to elasticity and vigor.

FOR PILES—As an external remedy we claim that it is the *best* known, and we challenge the world to produce an equal. Every victim of this distressing complaint should give it a trial for it will not fail to afford immediate relief and in a majority of cases will effect a *radical* cure.

QUINSY AND SORE THROAT are sometimes extremely malignant and dangerous, but a timely application of this Liniment will never fail to cure.

SPRAINS are sometimes very obstinate and enlargement of the joints is liable to occur if neglected. The worst case may be conquered by this Liniment in two or three days.

BRUISES, CUTS, WOUNDS, SORES, ULCERS BURNS AND SCALDS yield readily to the wonderful healing properties of *DR SWEET'S INFALLIBLE LINIMENT* when used according to directions. Also CHILBLAINS, FROSTED FEET, and INSECT BITES AND STINGS.

Every Horse Owner

should have this remedy at hand for its timely use at the first appearance of Lameness will effectually prevent those formidable diseases to which all horses are liable and which render so many otherwise valuable horses nearly worthless.

Over four hundred voluntary testimonials to the wonderful curative powers of this Liniment have been received within the last two years and many of them from persons in the highest ranks of life.

CAUTION

To avoid imposition observe the signature and likeness of Dr Stephen Sweet on every label and also "Stephen Sweet's Infallible Liniment" blown in the glass of each bottle, without which none are genuine. RICHARDSON & CO

TESTIMONIALS

"Gardiner's Rheumatic & Neuralgic Compound" is the best medicine for the disease I ever saw.
CHAS A SMITH, No 1 Old State House, Boston.

After suffering with Rheumatism twenty years, and being confined to my bed several weeks last spring I was entirely cured by the use of one bottle of "Gardiner's Rheumatic & Neuralgia Compound."
NORMAN T AYRES, 7 Franklin-st. Boston.

Having been a constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pain to the trial of numberless remedies without obtaining relief, I was induced to try "Gardiner's Rheumatic and Neuralgia Compound." I have taken but one bottle and am entirely well.—D D BAXTER, Dry Goods Dealer, No 5 Appleton Block Lowell, Mass.

I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined except by those similarly afflicted. I tried one bottle of your Compound and can hope they say that I believe myself entirely cured. JOHN A MUE, du Pearl street House Boston, Mass.

Warren's COUGH BALSAM!

Has been found, by experience, to be the Best Remedy for the various Diseases of the Lungs and Throat, such as

Asthma, Bronchitis, Consumption, Croup, Influenza, Pleurisy, Pneumonia or Inflammation of the Lungs, and Whooping Cough.

IN these Complaints this Medicine *has no superior*, and while thus efficacious it is perfectly safe to administer to persons of all ages.

At all times of the year this Balsam is found useful, especially in the Autumn Winter and Spring, and many colds and Coughs which if neglected, might finally prove fatal may be CURED at once by a few doses of this invaluable remedy.

This Cough Balsam possesses the twofold advantage of being at once *curative and immediate at a given time* of all the diseases of the Throat, Lungs and Bronchia.

In ASTHMA however violent and distressing this Balsam gives prompt relief.

In BRONCHITIS and PNEUMONIA it relieves the irritation, loosens the Cough and promotes a favorable expectoration.

In CROUP its powers are almost magical. The ... night ...

In WHOOPING COUGH it moderates the paroxysms, lessens the distress from coughing its severest and dangerous form and shortens its course.

Every family should keep it in the house and thus avoid the dangerous delay occasioned by sending out for the medicine when needed for immediate use.

The *best* recommendation for a good medicine is found in its use. If the following certificate from one who has used it does not give full evidence in its favor ... twenty-five cents and may save you as many dollars in time and doctor's bills.

DIXMONT Oct 20 1859

Dr Warren—Dear Sir—I have used your Cough Balsam in my practice the past year ... and can say that it is all that is recommended to be, having never failed ... given it. G H DAY, M D

A New Method for Laying Carpets!

NEATER CHEAPER, AND FAR MORE CONVENIENT THAN TACKS.

PATENT

CARPET HOOKS!

PATENTED March 22, 1859. They are bright as Silver and not Liable to Rust. Price Fifteen Cents per Gross. It is guaranteed of these Carpet Hooks—

That, with them Carpets can be taken up and relaid in ten minutes without hard work and *no extra pre. or often* of Carpets required.

That they will not injure the Carpet more than Tacks.

That they will hold the Carpet closely and firmly to the floor board.

That lady can use them without difficulty.

That once down, they can remain down without Inconvenience.

A neat Steel Gauge and Awl, which will enable any one to insert the Hooks expeditiously and at regular distances in the wall, may be had with the Hooks for *two cents* each.

Hooks, Fifteen Cents per Gross. A liberal discount to the trade. Terms cash. Put up in neat Boxes of Eight Dozen Gross, and in cases containing 12 boxes.

These Hooks received a *Diploma* at the last New York State Fair.

Those who try them say—We would not use Tacks if they were furnished free." The following is from the *Rochester Democrat and Advertiser*:

"Spencer's Patent Carpet Hooks—These neat little articles ought to go into general use. We have used them for two years past and find they are all they are represented to be. They are cheaper than tacks in the first instance and will last an indefinite period of time. In ten minutes an ordinary sized sitting-room carpet can be put down, after the hooks are placed, and in less time than it can be taken up. The hooks do not need to be removed with the carpet, but remain permanently fixed in their places."

☞ A trial of these will satisfy all that they need but to be known to supersede all other methods for laying Carpets.

AYER'S Sarsaparilla

FOR PURIFYING THE BLOOD.

And for the speedy cure of the following complaints Scrofula and Scrofulous Affections, such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pustules, Blotches, Boils, Blains, and all Skin Diseases.

OAKLAND, Ind., 6th June 1859

J C AYER & Co. Gents: I feel it my duty to acknowledge what your Sarsaparilla has done for me. Having inherited a Scrofulous infection I have suffered from it in various ways for years. Sometimes it burst out in Ulcers on my hands and arms; sometimes it turned inward and distressed me at the stomach. Two years ago it broke out on my head and covered my scalp and ears with one sore, which was painful and loathsome beyond description. I tried many medicines and several physicians, but without much relief from any thing. In fact the disorder grew worse. At length I was rejoiced to read in the Gospel Messenger that you had prepared an alterative (Sarsaparilla), for I knew from your reputation that any thing you made must be good. I sent to Cincinnati and got it, and used it till it cured me. I took it, as you advise, in small doses of a teaspoonful over a month, and used almost three bottles. New and healthy skin soon began to form under the scab, which after a while fell off. My skin is now clear, and I know by my feelings that the disease has gone from my system. You can well believe that I feel what I am saying when I tell you that I hold you to be one of the apostles of the age, and remain ever gratefully Yours,
ALFRED B TALLEY

St. Anthony's Fire, Rose or Erysipelas, Tetter and Salt Rheum, Scald Head, Ringworm, Sore Eyes, Dropsy.

Dr Robert M Preble writes from Salem, N. Y. 12th Sept 1859 that he has cured an inveterate case of *Dropsy*, which threatened to terminate fatally, by the persevering use of our Sarsaparilla, and also a dangerous *Malignant Erysipelas* by large doses of the same; says he cures the common *Eruptions* by it constantly.
